Bro. Daniel Jessup is the director of Master Ministries, at the headquarters of Master Clubs, the premier children's discipleship program in the USA. After having served the Lord in independent Baptist churches for almost 20 years, Bro. Jessup now brings his experience, leadership, and passion to children's ministries nationwide. He stands ready to serve your church by following the example of the Apostle Paul, "We do all things, dearly beloved, for your edifying."

SESSION INFORMATION:

Visual Aids and Object Lessons: Using Tools that are Specific to Your Target Age

Many use a visual aid or object lesson to help teach a lesson, but how effective is the tool? The equipment or method used must be considered in the light of the age group taught; otherwise the entire lesson is missed by the student. Fresh ideas, examples, and visual aids and object lessons will be displayed and discussed during this session.

Sensitive Saviour: Salvation Counseling with Children

The most powerful work a church will ever do is preach the Gospel to world in need of Christ. However, the most sensitive work a church will ever do is lead unsaved boys and girls to a saving knowledge of Christ. Are you prepared to counsel? Do you know how to lead a child to Christ? This session will give you confidence the next time you deal with a child concerning their born again experience.
